“ART UNITING PEOPLE” **A Celebration of Creativity and Mental Health**

Background

The Mental Health Anti-Stigma HOPE Campaign is dedicated to reducing the stigma of mental illnesses. The Hope Campaign enables Alexandrians affected by mental illness, intellectual disabilities and substance use disorders to participate fully in our community -- free of stigma. A government publication from the President’s New Freedom Commission on Mental Health identified stigma as the #1 obstacle preventing Americans with mental illnesses from getting the care they deserve.

This year’s HOPE Campaign will celebrate National Mental Health Month through *“Art Uniting People – A Celebration of Creativity and Mental Health.”* This is an art exhibition dedicated to making a difference. It provides people whose lives have been affected by mental illness the opportunity to use art as a form of expression in order to engage the Alexandria community in a conversation about mental health issues.

The Mental Health Anti-Stigma Hope Campaign is a partnership between the Community Services Board, the City’s Therapeutic Recreation Program, the Alexandria Office of the Arts and the Alexandria Commission for the Arts. Artists of all ages are invited -- young and old -- to participate. Artists may enter a diverse range of art pieces including all the different mediums in painting as well as sculpture, drawings, ceramics, photography and writing. Artists are also invited to share the inspiration behind their art pieces and some of their personal story to create a powerful and unique viewing experience for visitors to the exhibition.

Eligibility Criteria

To be eligible for acceptance into the exhibition the art piece must be created by:

- a person with a mental illness (Consumer)
- a care-giver* of a person with a mental illness
- a family member of a person with a mental illness
- a friend of a person with a mental illness

Clients of the Community Services Board, their family and Care-givers are strongly encouraged to submit art pieces.

*Definition of care-giver: A care-giver is a family member, friend, neighbor or other community member who provides support (however great or small) for someone who has a mental illness/disorder.
